**NORDIC LIGHT ASH
WIDE BOARD
SOLID HARDWOOD
FLOORING**

**STYLE CHART
B 5.11**

Ash (*Fraxinus Excelsior*) is one of the widespread European and North American hardwood species. It is greatly appreciated as a flooring with its high strength properties and its elegant, light appearance. Nordic Light Ash has a white toned surface which gives the floor a uniform and individual expression. It provides nordic elegance and enhances the lightness of the wood.

Junckers solid hardwood flooring is produced and categorized according to Junckers factory standards and in accordance with EN 13226 and EN 14342. Junckers floors are made exclusively from solid hardwood, with all the characteristics typical of this natural material. Each style will display a unique range of grain and colour characteristics. The photographs are designed to show the average appearance of the style and species. It is normal to see a variance in appearance between individual boards and packs. Floors laid at differing times may vary slightly because of this average grading. Hardwood floors may fade and change colour over time, especially when exposed directly to sunlight.
