MIDNIGHT BLACK

BEECH STRIP BOARD

SOLID HARDWOOD
FLOORING

STYLE CHART

B 2.25 - 3.25

Beech is one of Europe's most common hardwood species and the excellent strength properties in combination with a uniform structure make beech very suitable for floors. Together with the colour Midnight Black the floor appears with an all-covering deep black surface, and this adds an elegant and stylish look to the wood.

Junckers solid hardwood flooring is produced and categorized in accordance with EN 13629, EN 14342 and Junckers own factory standard.

The floors are made exclusively from solid hardwood and the photographs illustrate the colour, knots and structural graining variation characteristic for the specific wood species and grade. Each photograph shows the average appearance of the grade.

It is normal to see a variation in appearance between individual boards, staves and floors produced and installed at differing times. Up to 5% of the staves may contain features of the next style. Hardwood floors may fade and change colour over time, especially when exposed directly to sunlight.

JUNCKERS

CREATING EXCEPTIONAL SPACES

Midnight Black Beech Strip Board Harmony - width 129mm

The floor is primed with a black toned water based lacquer system followed by several coats of UV-light curing lacquer. Top finished with an ultra matt two-component polyurethane lacquer.

The structural graining variation natural for this grade is less expressed due to the black colour. Medium sized knots and hairline splits do appear to some extent. Natural voids are factory filled.
