CRG

Transform ordinary wall surfaces into stunning show pieces with CRG Wall Panel Systems. With the availability of custom corner profiles and the selection of hundreds of durable high-pressure laminate finishes, our wall panel system is a simple, cost effective solution for the total transformation of sports and fitness facilities and commercial interior spaces. Ideally suited for direct application over existing walls for remodel projects, or as a specified, integrated component of new construction. CRG Wall Panel Systems offer design flexibility.

Columns & Wall Panels

CRG Wall Panel Systems add a unique aesthetic value to any space. Take advantage of the dynamic elegance that Custom Laminates, Veneers and ClubLinea materials offer to enhance your club membership experience. Our products offer eco-friendly materials, designed to perform while always remaining conscious of the environment.

Raceways

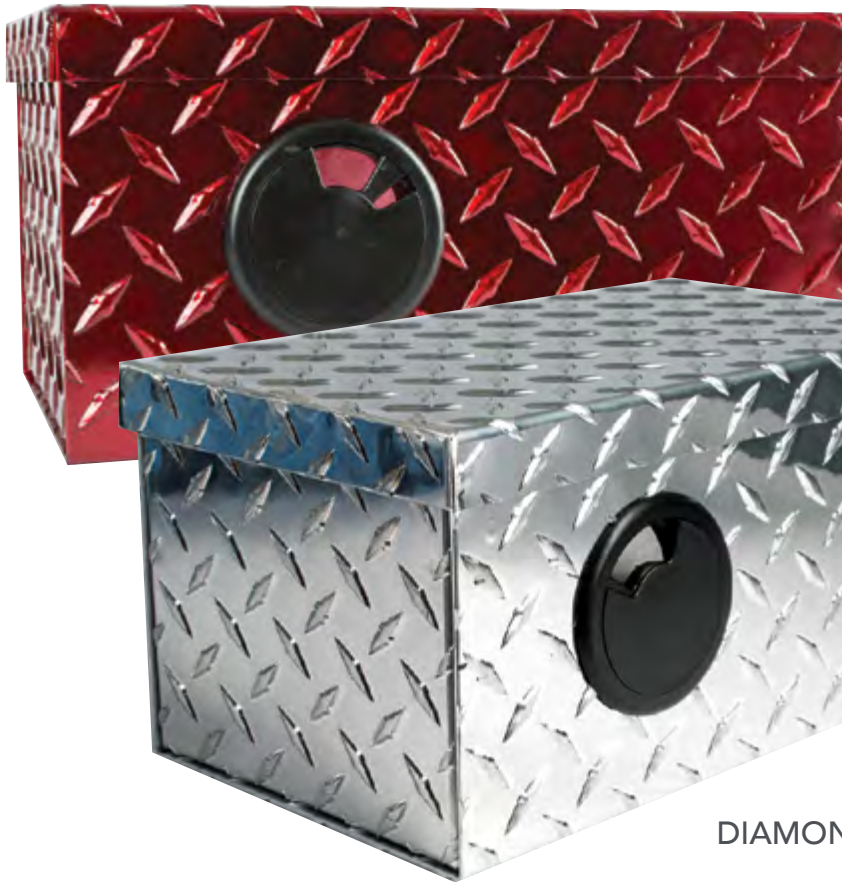

CRG Raceway Systems are designed specifically for the elimination of exposed cables and electrical outlets in front of cardio equipment. Securing power and data cables inside raceways will protect them from wear, due to high traffic and cleaning while removing the trip hazard which cables possess while piled upon the floor. The modular nature of the system allows for a custom fit into any specified space. Available in standard and custom powder coated and metal finishes.

RACEWAY

CRG Diamond Plate Raceways are formed from .090 aluminum with a distinct pattern and texture, to provide an aesthetically industrial look. This pattern is meant for provision of non-slip capabilities, dent resistance and ease of cleaning. The CRG Diamond Plate Raceway system is manufactured for its strength, corrosion resistance and versatility. Available in a full range of standard and custom powder coated finishes.

DESIGN. PLAN. FURNISH.

Since 1994 CRG has built a reputation of excellence. From specialty locker systems and club specific case goods, to hardwood and rubber resilient flooring systems, sport courts, and specialty product systems - we have dedicated ourselves to the enhancement of the facilities within the sports and fitness environment.

As sporting venues and fitness club facilities have evolved, so has CRG by providing better ways to help club owners, facility managers, architects and general contractors develop facilities that are as aesthetically durable and functional, as they are remarkably individual.
