services

upkeep cost saving measures and longevity

Once your CRG products are installed, we can assist in assuring they are properly maintained. We'll oversee and manage the maintenance and cleaning of our products on-site at your facility, including cleaning and refurbishing floors, turf, sports courts and more.

knowledge and experience

Our team is committed to your complete satisfaction – from concept, to planning to installation. Through a collaborative process our specialists will assist in your vision, plan your timeline and help minimize your budget, while bringing your concept to reality. Our knowledge and experience will translate your plan into a successful project.

DESIGN

CRG provides better ways to help club owners, facility managers, architects, designers and general contractors develop high performance facilities. We'll work closely with you to design, specify and create the products needed to frame your fitness, wellness or corporate spaces – ensuring optimum functionality and aesthetics.

PLAN

Of course, great design inspiration won't go anywhere without a plan. With many years of supporting the A&D and GC community CRG will work with your architectural group and general contractor to derive the best solutions and support for your facility. This includes complete logistical planning and support.

BUILD

At CRG we pride ourselves on bringing dedicated commitment and quality workmanship to all our projects. We provide not only products, but professional installation services. Expect the best in build out and finishing services as we enhance your facility.
