

## FIT ATHLETIC TURF [CL-FIT] SELL SHEET

FIT Turf System, developed for indoor and outdoor fitness. FIT creates a great surface for activities such as CrossFit and Functional Training including sled and sprint lanes. FIT is a high performance non-infill turf system that uses a 52/48 blend of nylon and polyethylene fiber with a foam or polyurethane backing. A non-infill turf system means easier maintenance and up to a 10% cooler surface. FIT Turf may be used for a permanent or non-permanent application.

*Available in a variety of colors in 15' widths.*
