WOOD FLOORING SYSTEMS

>>> THE BEAUTY OF WOOD naturally

There's nothing quite like the beauty and dependability of real hardwood flooring. Designed to meet the high-style, high-performance demands of your fitness, athletic or multi-purpose space, our MODA collection wood flooring comes in a wide range of colors and options. All products are Northern Hard Maple or Northern Red Oak and are available in three constructions: Solid Wood, 2-Ply Engineered, and 4-Ply Engineered. Count on MODA wood flooring for years of stunning looks and superior durability.

>>> AIR UP TO 85% PURER

Integrated into the flooring finish upon request, Pure Genius* improves your indoor air quality by converting toxic contaminants into harmless water and CO2 molecules. Natural or artificial light activate the titanium dioxide in Pure Genius, setting the air-purifying agent in motion. It works constantly and never loses performance over time.

pure genius

CONSTRUCTIONS ///

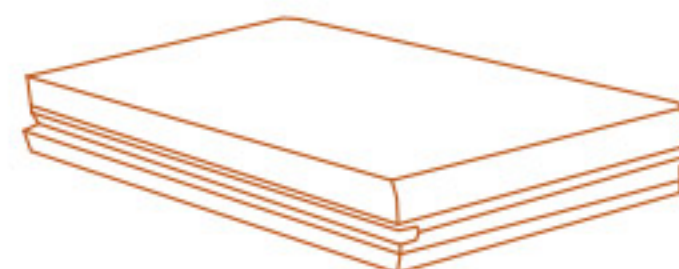

Improve performance and stability with your surface. Three different construction types of various widths and thicknesses to meet your space's flooring requirements.

SOLID
CONSTRUCTION >>>

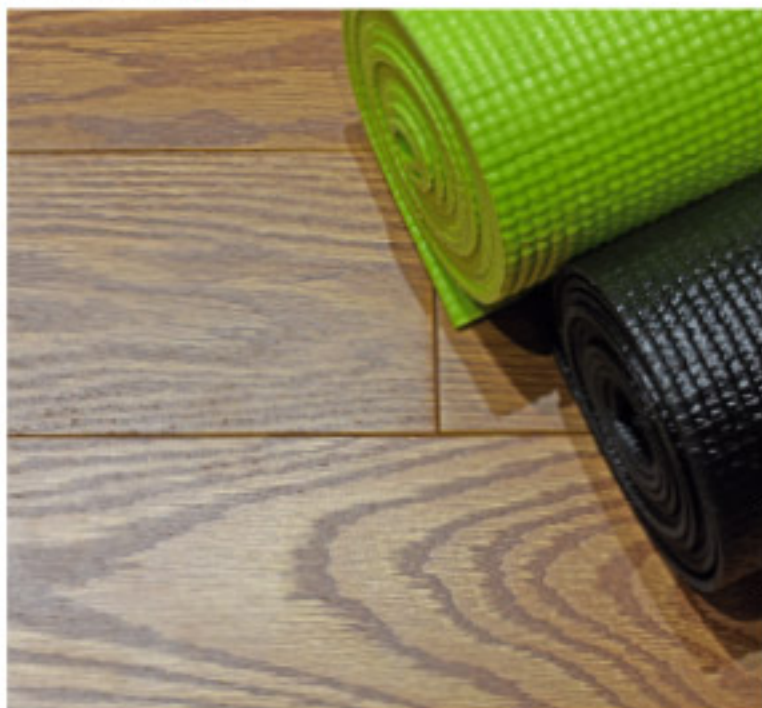

ALAMEDA (2 PLY)
ENGINEERED CONSTRUCTION >>>

MADERA (4 PLY)
ENGINEERED CONSTRUCTION >>>
