protect vertical surfaces
AN EASY AND STYLISH WALL SYSTEM

for strength and good looks

HIGH TRAFFIC AREAS NEED IMPACT RESISTANCE

Columns

Workout Rooms

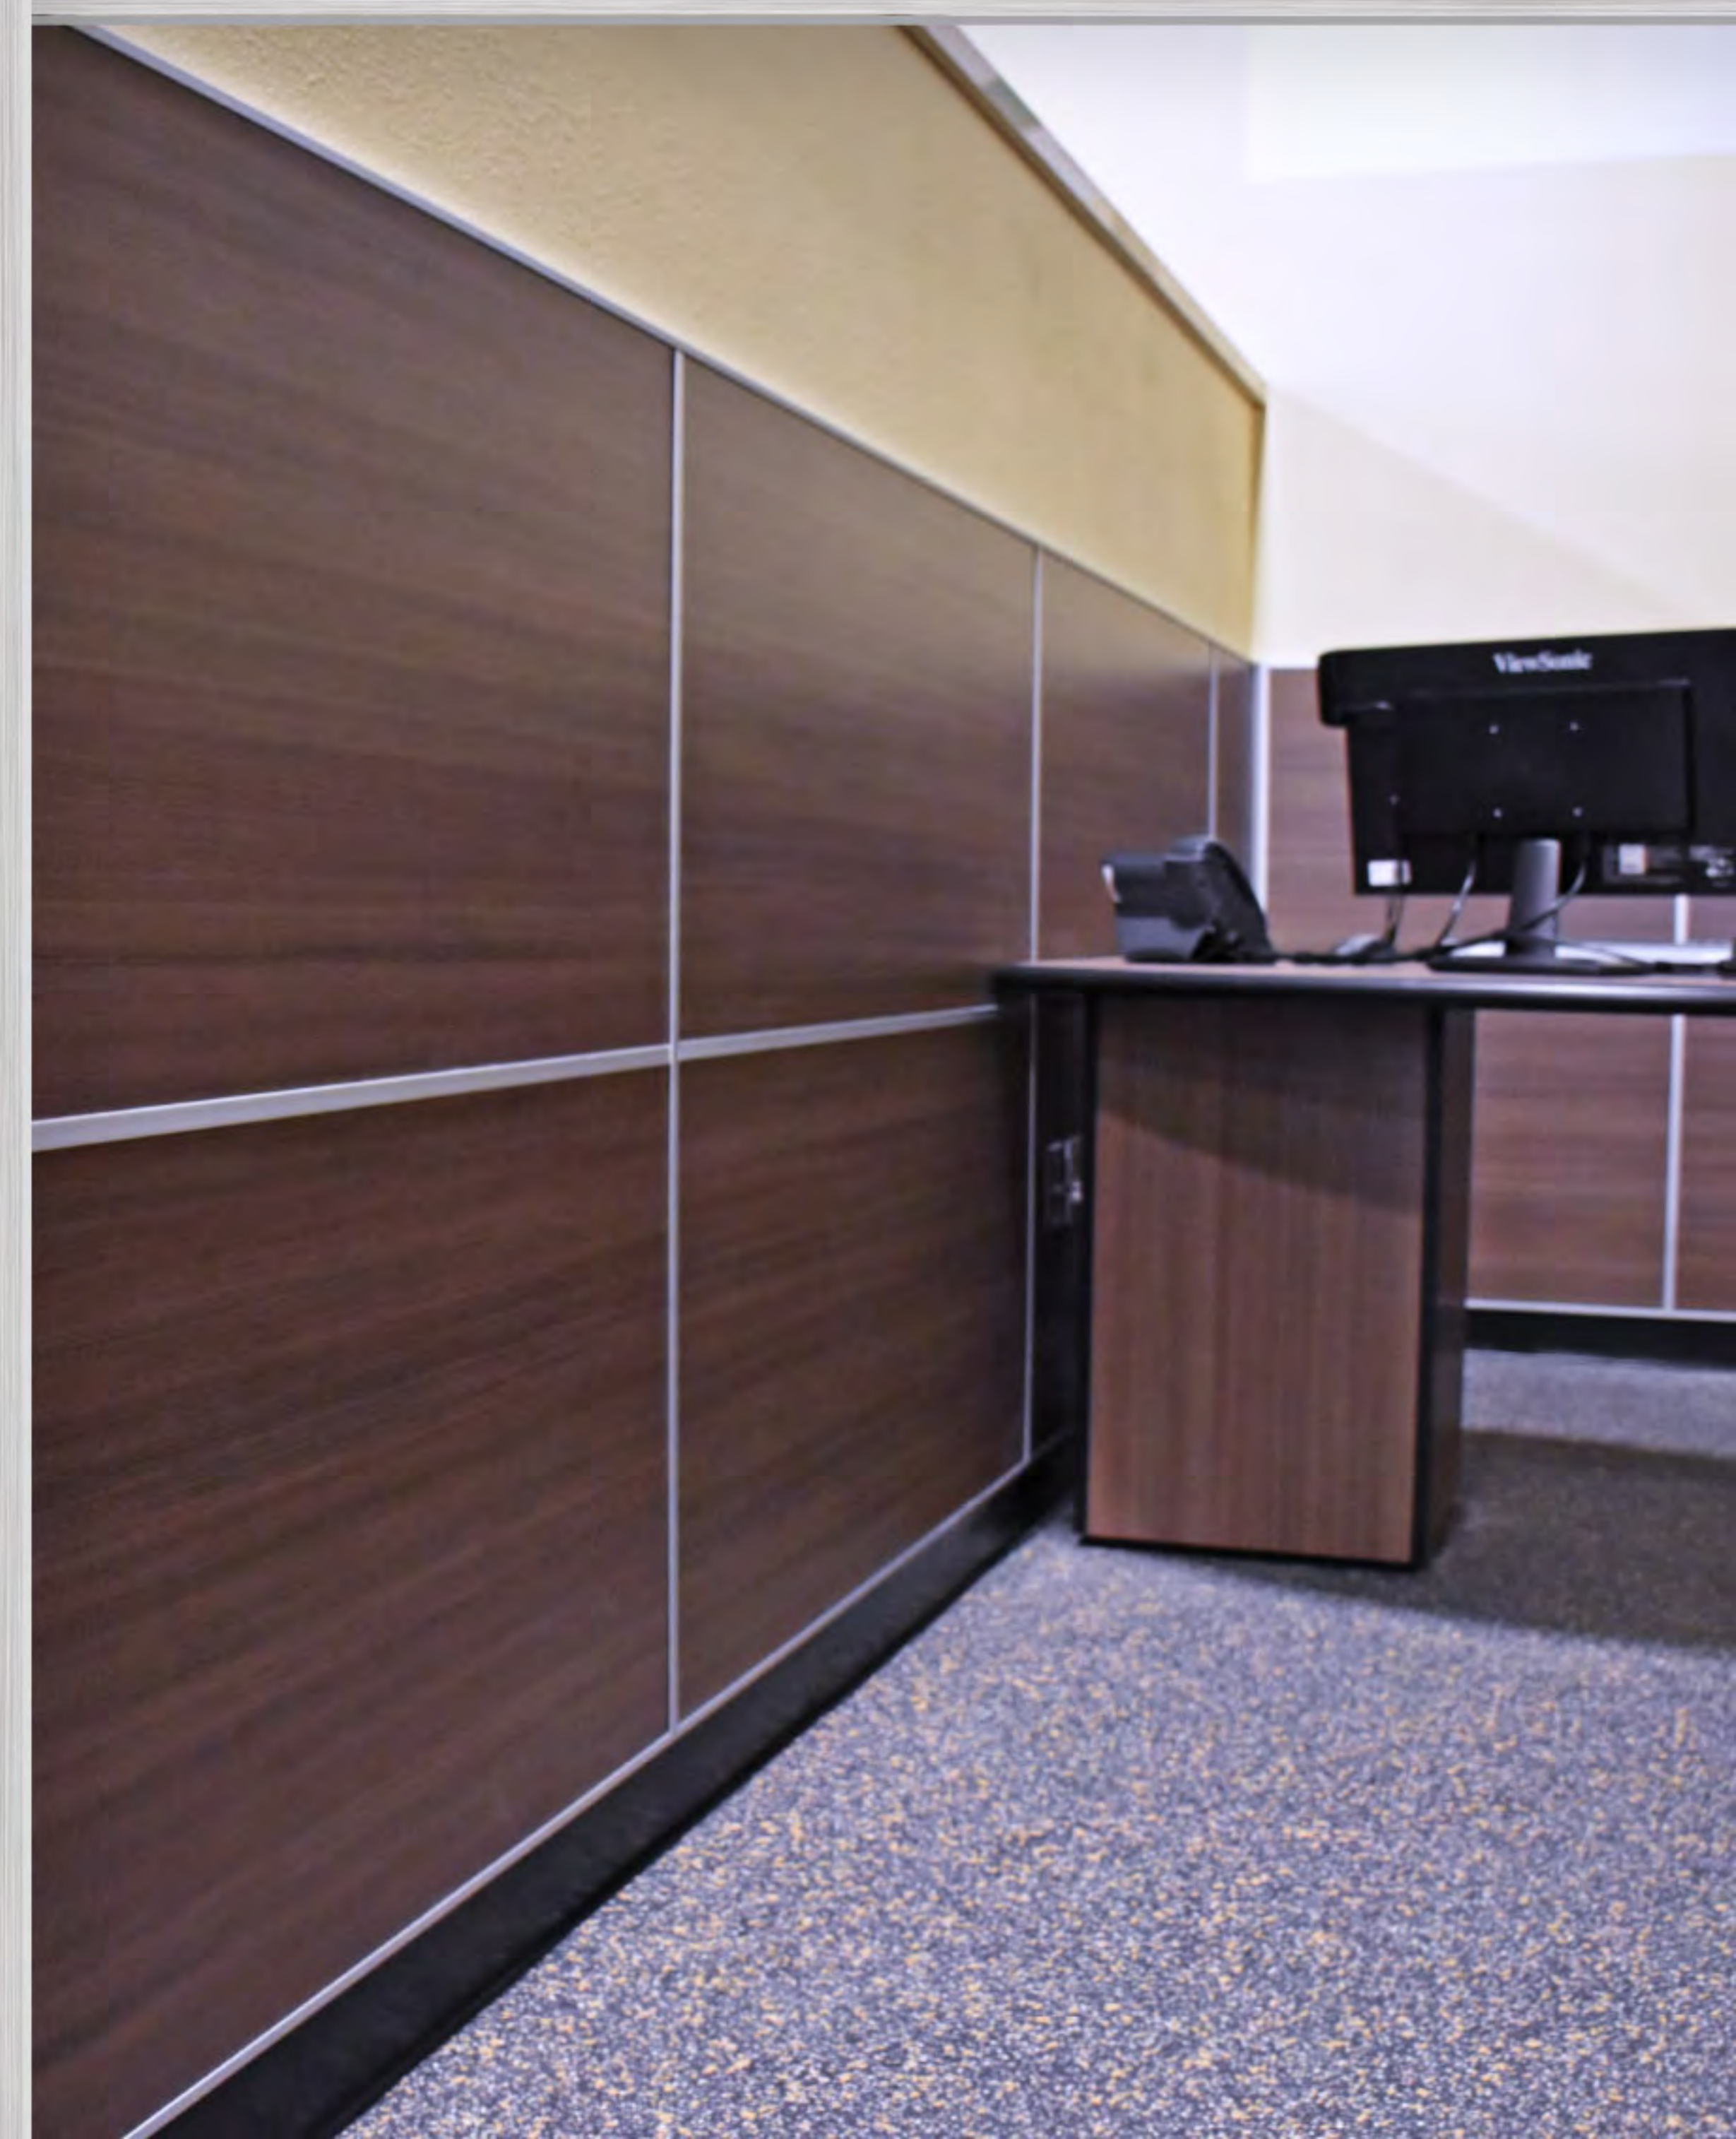

Accent Walls

Transform ordinary wall surfaces into protective, decorative surfaces with CRG Wall Panel Systems.

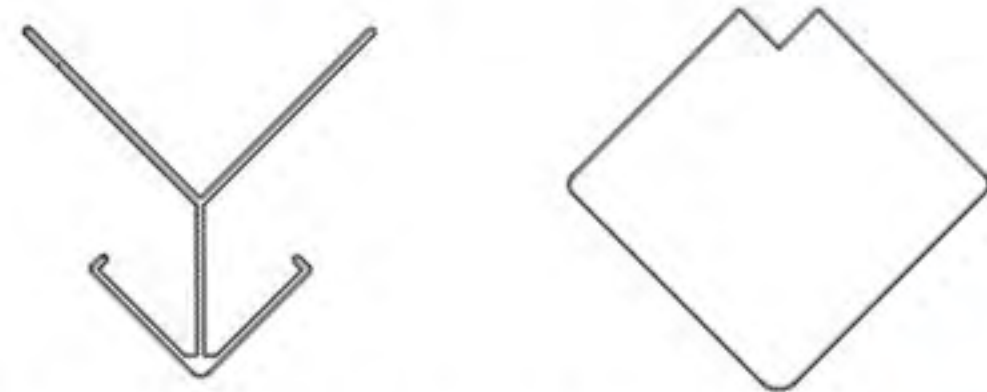

With the availability of custom corner profiles and the selection of hundreds of durable high-pressure laminate finishes, our wall panel system is a simple, cost effective solution for the total transformation of sports and fitness facilities and commercial interior spaces.

3 CORNER styles

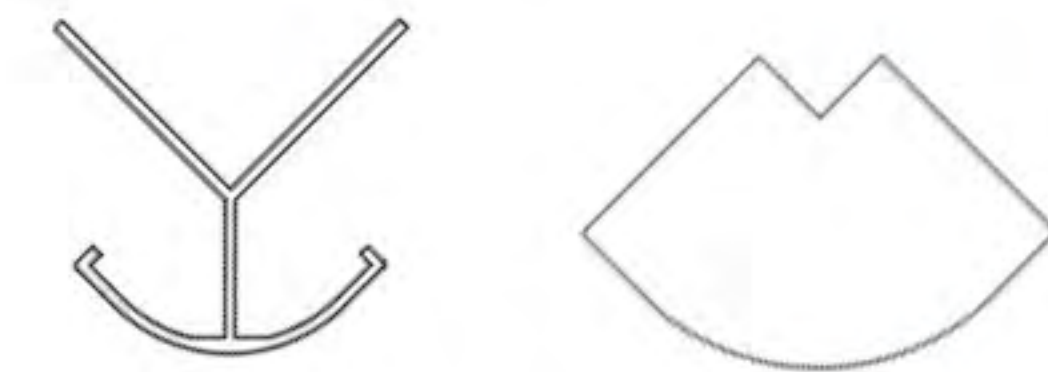

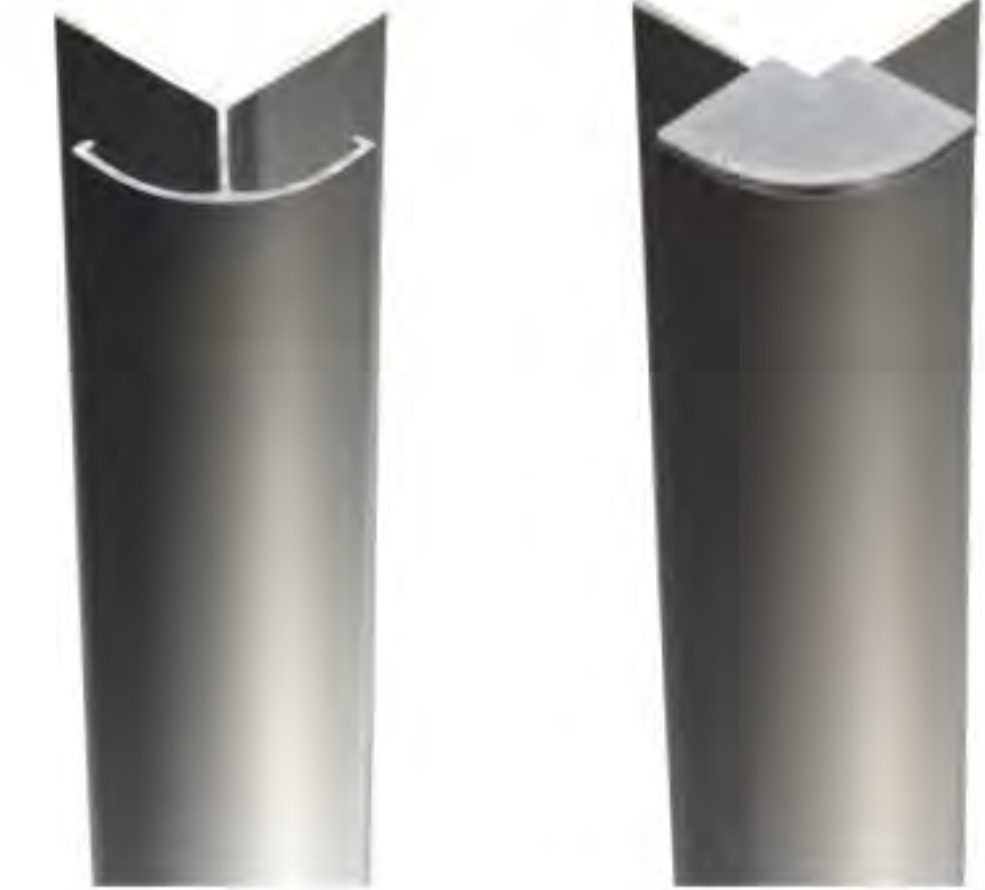

Square, radius and arc extrusions, ideally suited for direct application over existing walls for remodel projects, or as a specified, integrated component of new construction. CRG Wall Panel System offers design flexibility. Two junction bars and six top caps create a clean end run to finish off the wall installation.
