## ABOUT JUNCKERS

Junckers is Europe's leading solid wood flooring manufacturer. The company has deep roots tracing back to its establishment in 1930 by founder, Flemming Juncker. A visionary and dedicated forester, Flemming Juncker possessed a profound sympathy and understanding for what is today referred to as the circular economy. He advocated a sustainable approach to wood flooring, aiming to utilize every part of the tree. This vision remains integral to Junckers today through its incorporated philosophy: **Join the Collab with Nature.**

When developing woodcare products, Junckers does so with a deep understanding of the requirements for both quality and environmental considerations. The company believes that urethanes, oils, and cleaning products play a crucial role in maintaining the beauty of wood products while extending their lifespan. At the factory in Denmark, a dedicated team of experts meticulously monitors the daily production, providing unparalleled insights into the functionality of wood flooring and an understanding of the challenges that any project may present.

The close connection to production enables Junckers to create solutions that meet the specific needs and requirements of customers within the sports, commercial, and residential segments.

Successful projects require a reliable partner from start to finish. Junckers is committed to being a reliable and professional partner, working side-by-side with customers from project planning to execution and subsequent maintenance.

Experience has shown that this approach is crucial to offering sustainable-minded solutions that last for decades – making the company a preferred choice for professionals working on project sales worldwide.

OAK NORDIC WHITE PLUS, PLANK

# TEXTURED & COLORED PLANK FLOORS

Junckers textured oak floors feature a distinctive surface created with a special brushing technique. By removing the softer sapwood, the darker, tougher heartwood is raised, highlighting the wood's lively grain in a silky-soft, tactile finish.

Combined with carefully selected surface colors, the textured detail adds a new sensory dimension to the room—creating a floor with unique style and personality.

# HEXPARKET

Shapes and patterns in nature have a great impact on architecture and interior design. We let ourselves be inspired and the hexagon - a pattern based on equilateral triangles - is just one of several basic geometric patterns emerged by forces of nature and basic mathematics. Just take a look at a beehive, snow crystals or the shape of certain flowers.

# TRADITIONAL PATTERNS

## THE TWIN HERRINGBONE FLOORING

Twin Herringbone is inspired by traditional herringbone flooring, but with a distinctive, exclusive look. It is delivered pre-finished and ready to walk on immediately after installation.

Made from Junckers' classic two-stave flooring, each board combines one full-length stave and two half-length staves. The result is an authentic herringbone pattern with an elegant finish at an attractive price point.

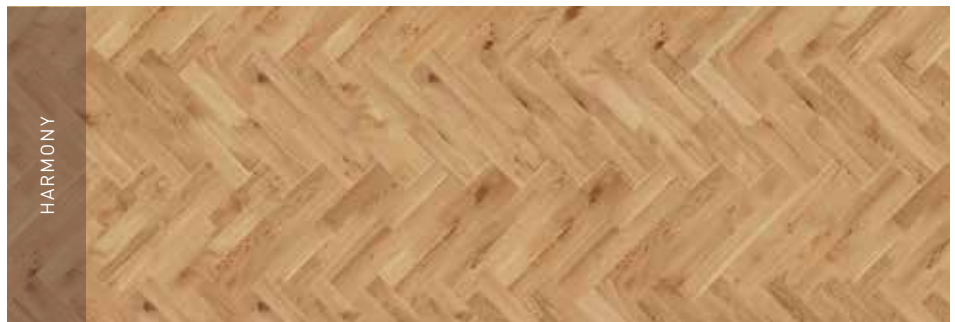

### OAK
