resilient commercial flooring

FLOORING FIT FOR A LIFETIME OF ADVENTURE.

INITIAL CLEANING

1. Remove all loose debris by vacuuming, sweeping, or dust mopping.
2. Wet scrub the floor using a buffer or auto scrubber fitted with a soft nylon brush, 3M Blue Cleaner Pad 5300, or equivalent. The floor can also be cleaned by hand using a microfiber mop head. We recommend Diversey Profi Floor Cleaner and Grease Remover (see note) but any neutral pH (7-9) is acceptable. Dilute 10 oz. of solution per gallon of water. Do not flood the floor with water.
3. Pick up cleaning solution with a wet vacuum, rinse with clean water. Again, do not flood the floor with water. Wet vac the floor again to remove the rinse water.
4. Allow the floor to completely dry before allowing foot traffic.

FLOOR FINISH APPLICATION

1. Apply 2-3 light coats of Diversey Carefree Matte Floor Finish after the initial cleaning.
2. Apply the floor finish evenly using a Microfiber Flat Floor Finish applicator.
3. While the floor finish is wet, buff the floor using a slow speed buffer fitted with a soft nylon brush (150 rpm-300 rpm).
4. Allow each coat to completely dry before applying the subsequent coats.

REGULAR MAINTENANCE

1. Keep the floor free from loose debris by sweeping, dust mopping, or vacuuming daily or as needed.
2. Damp mop with a microfiber mop or auto-scrubber with a soft nylon brush and 6-10 oz of diluted Diversey Profi Floor Cleaner and Grease Remover.
3. Pick up cleaning solution with a wet vacuum, rinse with clean water. Again, do not flood the floor with water. Wet vac the floor again to remove the rinse water.
4. Allow the floor to completely dry before allowing foot traffic.

RESTORATIVE MAINTENANCE

1. Remove all loose debris by vacuuming, sweeping, or dust mopping.
2. Heavy scrub the floor using an auto scrubber or buffer with a 3M Black Stripper Pad 7200 or equivalent and Diversey LinoSafe Linoleum Stripper solution (dilution ratio 1:4 with water). Keep the floor wet to avoid damage to the floor from the scrub pads. Do not flood the floor with the solution.
3. Pick up the solution with a wet vacuum, rinse with clean water. Again, do not flood the floor. Wet vac the floor again to remove the rinse water.
4. Allow the floor to completely dry before allowing foot traffic.
5. Apply 2-3 coats of new Diversey Carefree Matte Floor Finish as described above in Floor Finish Application.

Notes: Diversey products are manufactured by Diversey Inc. For additional information go to www.diversey.com.
